## Career Objective

A self motivated and ambitious Frontend Developer proficiency with modern web technologies and skills to write clean, efficient and reusable code. I'm passionate about web development and very curious to learn new technology.

## Skills :

- **Good at** : JavaScript, HTML5, CSS3, Sass, Bootstrap, Tailwind CSS, JS DOM, Rest API, React, React Hooks, React Router, React Bootstrap, Wordpress-Elementor.
- **Comfortable** : C, ContextAPI, Styled Components, Material UI, Firebase, Git.
- **Familiar** : Python, PHP, TypeScript, Node Js, ExpressJS, MongoDB, Wordpress.
- **Others** : Github, VS Code, figma, Netlify, Heroku, Canva, Linux.

## Recent Work:

### → Fresh Valley

- ★ Product selling web app. Users can choose a product and see details of the product & checkout to add to the cart.
- ★ And users can see their previous activities.
- ★ It's a full stack web app. It has an admin panel, a modern website must have this feature. An admin can add/delete and manage all orders.
- ★ **Tools** : React, Bootstrap, Node, Express, MongoDB(CRUD), Firebase, Heroku.
- ★ **Live**: <https://fresh-valley-mithu.web.app/>
- ★ **Repository**: <https://github.com/MinhazulAbedinMithu/a-10-fresh-valley-client>

### → Sports Team

- ★ There are several cards to show the Sport team & logo.
- ★ When you click on the EXPLORE, It shows the team details and additional information.
- ★ **Tools** : React, React Router, Tailwind Css, Web API, Vanilla JavaScript, Netlify.
- ★ **Live**: <https://sports-team-info.netlify.app/>
- ★ **Repository**: <https://github.com/MinhazulAbedinMithu/sports-info>

### → Bongo Bee

- ★ It's a React Web App Which has some features of a Social Site.
- ★ You can see friends post, post comments. You also can give a reaction to their post.
- ★ **Tools** : React, React Router, React Bootstrap, Styled Components, Web API, Netlify.
- ★ **Live**: <https://bongobee.netlify.app/>
- ★ **Repository**: <https://github.com/MinhazulAbedinMithu/bongo-bee>
